

MODERATORS - SPEAKERS

Augoustides-Savvopoulou Persephone

Professor in Clinical Pathology - Inherited Metabolic Diseases, Director of Metabolic Laboratory, 1st Paediatric Department, Aristotle University of Thessaloniki, General Hospital of Thessaloniki "Hippocraton", Thessaloniki, Greece

Chrousos P. George

Professor of Paediatrics, Director of the 1st Department of Paediatrics, Medical School University of Athens, "Aghia Sophia" Children's Hospital, Athens, Greece

Dinopoulos Argyrios

Lecturer in Paediatric Neurology, 3rd Department of Paediatrics, Medical School University of Athens, "Attikon" General Hospital, Athens, Greece

Drogari Euridiki

Assistant Professor of Metabolic Paediatrics, Laboratory for Metabolic Diseases, Choremio Research Institute, 1st Department of Paediatrics, Medical School University of Athens, "Aghia Sophia" Children's Hospital, Athens, Greece

Drousiotou Anthi

Head of the Department of Biochemical Genetics, The Cyprus Institute of Neurology and Genetics, Cyprus

Kaleyias Joseph

Paediatric Neurologist, Paediatric Neurology Unit, Department of Paediatrics, University Hospital of Patras, Patra, Greece

Morava Eva

Metabolic Paediatrician, Associate Professor Metabolic Disorders, Radboud University Nijmegen Medical Center, Department of Paediatrics, Metabolic and Endocrine Disorders 833 Institute for Metabolic and Genetic Diseases, Nijmegen, The Netherlands

Morris Andrew

Consultant in Paediatric Metabolic Medicine, Manchester Academic Health Sciences Centre, Central Manchester University Hospitals NHS Foundation Trust, Manchester, UK

Papadimitriou Alexandros

Professor of Neurology, University of Thessaly, Greece

Rodenburg Richard

Clinical Biochemical Geneticist, Nijmegen Center for Mitochondrial Disorders, Department of Paediatrics, Department of Laboratory Medicine, 656 Laboratory for Genetic, Endocrine and Metabolic disorders (LGEM), Nijmegen, The Netherlands

Stefanadis Christodoulos

Professor of Cardiology, Director of the 1st Department of Cardiology, Medical School University of Athens, "Hippokration" Hospital, President of the Medical School, University of Athens, Greece

Taylor Robert

Professor of Mitochondrial Pathology, Mitochondrial Research Group, Institute for Ageing and Health, Newcastle University, UK

Thanos Dimitrios

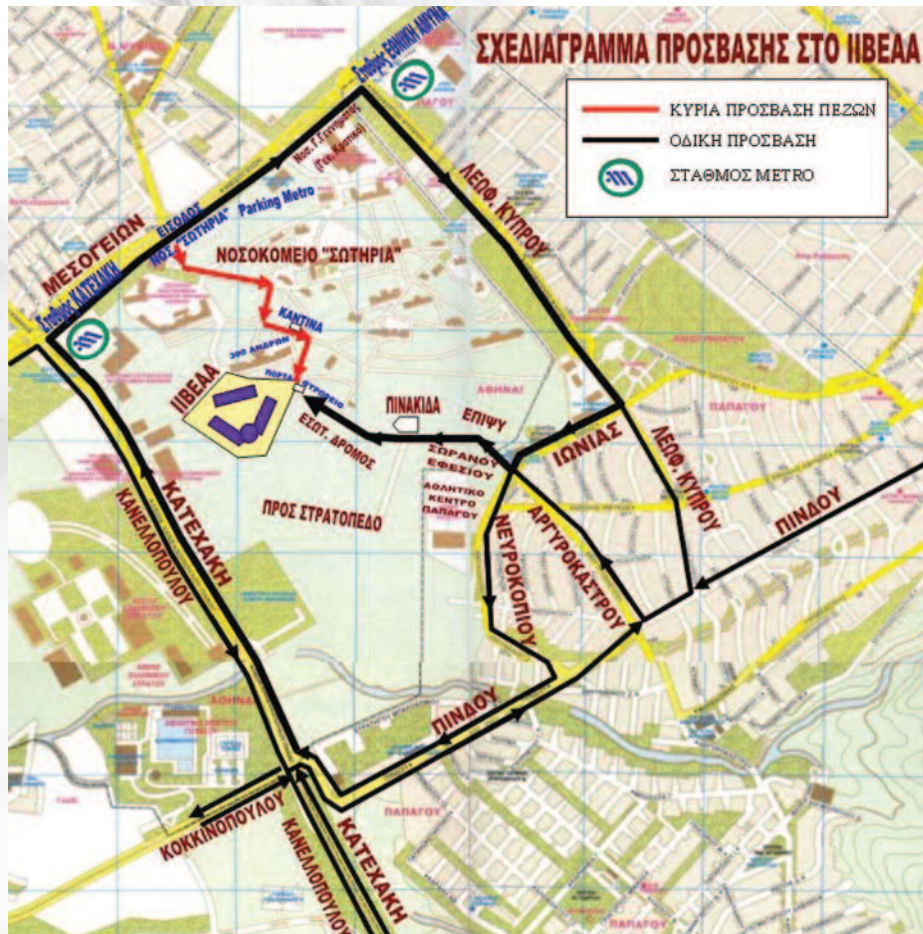

Professor-Researcher, President of the Scientific Board of the Biomedical Research Foundation Academy of Athens (BRFAA), Greece

Zeviani Massimo

Professor - Director, Unit of Molecular Neurogenetics Fondazione Istituto Neurologico "Carlo Besta" Milan, Italy

2nd Hellenic Educational Seminar Inborn Errors of Metabolism

in children, adolescents and adults:
"from the Symptom to the Diagnosis"

Free parking space

Organization

12 Thessalonikis str, 153 44 Gerakas, Greece

Tel.: 210 6048260, Fax: 210 6047457

E-mail: mschismenou@free-spirit.gr / Web site: www.free-spirit.gr

Hellenic Educational Seminar

Inborn Errors of Metabolism

in children, adolescents and adults:

"from the Symptom to the Diagnosis"

"Mitochondrial Disorders"

Organization:

Hellenic College of Paediatricians

Metabolic Clinic and Laboratory for Metabolic Diseases
Choremio Research Institute

Director: E. Drogari

1st Department of Paediatrics, Medical School University of Athens

Under the auspices of the:

- Medical School University of Athens •
- 1st Department of Paediatrics, Medical School University of Athens •
- "Aghia Sophia" Children's Hospital

Scientific Program

Saturday
October
1

2011
Athens, Greece

Biomedical Research Foundation
Academy of Athens

(Entrance - Pápagou Municipality , behind "Sotiria" General Hospital)

Organization:

12 Thessalonikis str, 153 44 Gerakas, Greece

Tel.: 210 6048260, Fax: 210 6047457,

E-mail: mschismenou@free-spirit.gr

Entrance Free

Seminar Language:
English

Invitation

Dear Colleagues,

It is a special pleasure and honor to invite you to the **2nd Hellenic Educational Seminar for Inborn Errors of Metabolism in Children, Adolescents and Adults**. The Seminar is dedicated this year to the **Mitochondrial Disorders**. These diseases are considered to be rare but it is sure that they are underdiagnosed due to their large clinical heterogeneity and to their great number.

The main purpose of this Seminar is to enable hospital clinicians, general and specialized paediatricians to attend lectures focused "from the symptom to the diagnosis". The invited specialized speakers are very experienced in clinical practice, as well as prominent researchers. Hopefully it will be possible to share their knowledge of many years of experience in a practical manner to all participating paediatricians.

It is well known that in our country the Inborn Errors of Metabolism are underdiagnosed. Their early detection would greatly contribute to the decrease of death rates and all kinds of patient disabilities, it will improve the quality of life, it will prevent the birth of new patients and it will support the families which face serious problems.

With Honor

George P. Chrousos
Professor of Paediatrics and Director,
1st Department of Paediatrics,
Medical School University of Athens,
"Aghia Sophia" Children's Hospital

Euridiki Drogari
Assistant Professor of Metabolic Paediatrics,
Laboratory for Metabolic Diseases,
Choremio Research Institute,
1st Department of Paediatrics,
Medical School University of Athens,
"Aghia Sophia" Children's Hospital

Saturday, October 1st 2011

09:00 - 10:00

Registrations

10:00 - 10:15

Addresses
George P. Chrousos
Christodoulos Stefanadis
Dimitrios Thanos

10:15 -10:55

Moderator: **Alexandros Papadimitriou**
Lecturer: **Massimo Zeviani**
Basic concepts in mitochondrial medicine

10:55 -11:05

Discussion

11:05 -11:20

Coffee Break

11:20 -12:00

Moderator: **Argyrios Dinopoulos**
Lecturer: **Eva Morava**
Clinical features of Mitochondrial Disorders

12:00 -12:10

Discussion

12:10 -12:50

Moderator: **Joseph Kaleyias**
Lecturer: **Andrew Morris**
Mitochondrial Disorders: neurological features

12:50 -13:00

Discussion

13:00 -14:00

Light Lunch

14:00 -14:40

Moderator: **Persephone Augoustides-Savvopoulou**
Lecturer: **Richard Rodenburg**
The basics of biochemical and genetic mitochondrial investigations in paediatric patients

14:40 -14:50

Discussion

14:50 -15:30

Moderator: **Anthi Drousiotou**
Lecturer: **Robert Taylor**
Investigation of mitochondrial disease in adults

15:30 -15:40

Discussion

15:40 -15:55

Coffee Break

15:55 -16:55

Moderator: **Euridiki Drogari**
Lecturers: **Andrew Morris, Eva Morava**
•Differential diagnoses - Consensus diagnostic criteria
•Treatment and prenatal diagnosis

16:55 -17:15

Discussion

Farewell
